

G-tec

Geophysical | Hydrographic | Engineering | Environment
Exploration | Survey | Geology

G-tec is a specialized contractor and consultant in Geophysics, Engineering Geology and Environment. G-tec operates around the world on land and at sea with a highly qualified and motivated team of civil engineers, earth scientists, hydrographers, biologists and electronic engineers providing efficient and innovative solutions for ground investigation and hydrographic surveys, completely in line with the client's demands and requirements.

For our office in Belgium

Marine Surveyor (M/F)

Your profile:

- You hold a diploma related to hydrographic surveying, or equivalent by experience;
- You are familiar with marine survey techniques and software;
- You have a good practical sense and ability to do the job in difficult and remote conditions;
- You are flexible and willing to work within a team in Belgium and abroad;
- You have a good knowledge of English. Knowledge of any other language is an asset.

Your task:

- Take part in all survey activities on our projects worldwide, including:
 - Survey planning
 - Equipment mobilization and demobilization,
 - Data acquisition and QC;
 - Data processing and reporting;
- Participate in adherence and improvement of the company management system on Quality and HSE related issues.

We offer you:

- To be part of a young, innovative and attractive company;
- A challenging and varied job;
- An excellent working environment with an opportunity to develop your career within the G-tec group;
- An attractive salary package
